

HANCOCK

BOARD WILL ADVERTISE
FOR MORE WATER PIPE

Board of Public Works at Regular Meeting Yesterday Took Action Authorized by Council Relative to Securing Additional Pipe—Other Matters Considered.

A regular meeting of the board of public works of the city of Hancock was held yesterday afternoon. Action was taken on the matter of purchasing an additional 1,600 feet of water pipe, as authorized by the council last Friday evening, and the clerk and city engineer were instructed to advertise for the necessary pipe, together with six hydrants, valves and fittings. The pipe is to replace some of that bought for the West Hancock water works extension, but which was used on Railroad avenue, Emory street and on Mason avenue. The bids call for delivery f. o. b. this city, cars or city dock, making it optional whether shipment will be by rail or water route.

There was a general discussion of the water development experiments on the city tract in West Hancock, following a report by City Engineer Craig relative to the work that has been accomplished. Excellent progress was reported by the engineer, but no action regarding the subject was taken by the board. It was decided to request the council to arrange for a conference between the public works board and the members of the water committee of the council for the purpose of discussing the purchase of a new pump for the city.

A list of delinquent water users was presented by the clerk, who was instructed to submit it to the council at its next meeting and ask for instructions as to what shall be done regarding it. It is probable that the council will follow its usual practice and order the water supply shut off from the premises of those failing to come across with the water rents.

FIREMEN'S DANCE WEDNESDAY.

The dancing public is eagerly awaiting the date of the annual dance of the Hancock firemen, which takes place Wednesday evening, October 27, in the Germania hall. The committee which had charge of the canvass of the city for the sale of tickets, reports a very favorable response, and one of the biggest crowds of the season is expected to be present at tomorrow night's great event. A particularly attractive program of musical selections has been prepared for the occasion by director Johnson of the Quincy band, which for the evening will consist of ten pieces, and the other preparations are such as to make the occasion a notable one among the big dancing parties of the fall season.

MEDICS MEET MONDAY.

The regular monthly meeting of the Houghton County Medical society will be held on Monday evening next, November 1, at the Scott Hotel in this city. Papers and discussions will take place, one of the features being a report on a couple of cases by Dr. W. H. Matchette of this city. The annual meeting of the Houghton county Dental association will be held in this city on Monday evening, November 8. It also will take place at the Scott Hotel, and a banquet will be enjoyed by the members as a feature of the gathering. The annual election of officers will take place, and other business of importance will be transacted.

CONCERNING THE YANTIC.

A Sturgeon Bay dispatch says: Hebed & Wolter were the successful bidders and have been awarded the contract by the government authorities to rebuild the naval training ship Yantic. Just how extensive the rebuild will be is not definitely known but it will no doubt be a thorough job. This craft is one of the oldtimers, having been built at Philadelphia in 1864 and did service in the latter days of the rebellion. She was subsequently put in the unserviceable class. The idea was then conceived of converting this class of boats into naval training ships and the Yantic was assigned to the state of Michigan. She is hulk rigged and presents a unique as well as interesting appearance.

WHY SALVES FAIL TO
CURE ECZEMA.

They Clog the Pores—Only a Liquid Can Reach the Inner Skin.

Since the old-fashioned theory of curing eczema through the blood has been given up by scientists, many different salves have been tried for skin diseases. But it has been found that these salves only clog the pores and can not penetrate to the inner skin below the epidermis where the eczema germs are lodged.

This—the quality of penetrating—probably explains the tremendous success of the only standard liquid eczema cure, oil of watergreen as compounded in D. D. D. Prescription. After ten years of cure after cure, the world's leading skin specialists have accepted this as the true eczema cure. We ourselves do not hesitate to recommend D. D. D. Prescription at \$1 a bottle, but for the benefit of those who have never tried the prescription, we arranged with the D. D. D. Laboratories of Chicago for a special large trial bottle at 25 cents on a special offer now. This trial bottle ought to convince every sufferer, and, at any rate, it will surely take away the itch at once. Sold by Eagle Drug Store, Red Jacket.

WRIGHT TO BE TOASTMASTER
AT SCHOOL BOARD BANQUET

The banquet to be given Wednesday evening at the Scott Hotel by the members of the board of education to the teachers in the public schools will be presided over by C. A. Wright, one of the members of the board. There will be no formal program of toasts but a number of those present will be called upon for remarks on matters pertaining to scholastic affairs in general. The affair is intended to bring the board and teachers into closer relationship and to afford an opportunity for the teachers in the various schools to meet each other and become better acquainted. Hitherto there have been no entertainments or receptions arranged for the teachers and the result is that the teachers in one school have in some instances passed an entire term without becoming acquainted with the teachers in the other schools. An orchestra will provide music for the banquet and an exceptionally fine menu will be prepared for the occasion by the Scott Hotel staff.

WM. BENNETTS DEAD.

Well Known Young Cornishman Succumbs to Bright's Disease.

William Bennetts, a highly respected and well known young man of Butte, aged 22 years, died at the family home, 526 Kemper avenue, on Thursday afternoon of Bright's disease. The deceased was single and has two married sisters in the city, Mrs. Emma Langdon and Mrs. Flora Willoughby. Mr. Bennetts was a native of Callington, Cornwall, England, but had been a resident of this city for several years. About one month ago he returned from a visit to friends in Hancock, Mich. The body was taken to Richards undertaking establishment and prepared for burial. The funeral will be held tomorrow afternoon from 526 Kemper avenue. The Rev. Spencer will officiate.—Butte Tribune-Review.

Sunday, November 14, has been selected as the date for the holding of the anniversary services at the Methodist Episcopal church. The program, as already announced in The News, will consist of a musical entertainment, addresses by prominent speakers and a bazaar under the auspices of the Ladies' Aid society.

Pre-eminent Distinction.

If there be no nobility of descent, all the more indispensable is it that there should be nobility of ascent—a character in them that bear rule so fine and high and pure that as men come within the circle of its influence, they involuntarily pay homage to that which is the one pre-eminent distinction—the royalty of virtue.—Henry C. Potter.

RESIDENTS OF HUBBELL
ORGANIZE SOCIAL CLUB

A meeting of the business men and clerks of Hubbell held Monday evening, was productive of an organization which will likely be one of the strongest social clubs in that village. The newly formed organization will be known as the "Hubbell Social Club" and it starts out auspiciously with a charter membership of twenty-eight young people. Charles Doyl acted as temporary chairman and the election of officers resulted as follows:

President—Alex Lanctot.
Secretary—Albert Ethier.
Committee on hall—Leo Frenette and Alex Loraux.

Committee on music—Alex Lanctot and Ben E. Gillet.
There was a good representation of the business people and clerks present and before the closing of the session it was decided to hold a social party on November 3, in Opal's new dance hall. The initial party will be a private affair. Each member of the club will have the privilege of bringing a friend and tickets will be presented to the business men so that they may be present. Hart's full orchestra has been engaged to furnish music for the evening and the hall will be prettily decorated.

The members propose to conduct another dance later which will be of a public nature. The members are very enthusiastic over their new organization and prospects for increasing the membership are bright.

WILL LOCATE IN SAGINAW.

Dr. Glass Will Give Up Dental Practice in Lake Linden.

The Saginaw Courier-Herald says: Writing to the Courier-Herald Dr. Percy R. Glass, former secretary of the Southern Michigan league, who is now making a pleasure trip to Chicago and Lake Linden, his former home, the doctor says he never was quite so happy in his life, as since relieved of the worries and troubles of the league. The doctor greatly appreciates the friendship of his many Saginaw friends and thinks this city is just about the liveliest one in the state. He has therefore decided to close all his affairs at Lake Linden and will practice his profession in this city permanently from now on.

TORCH LAKE BREVITIES.

A birthday party was celebrated last evening at the home of Mr. and Mrs. John Spanglaub, in honor of their daughter, Miss Wilmet's seventeenth anniversary. A large crowd was present and during the evening music was enjoyed, games played, and a luncheon was served.

Miss Mable Horton of St. Ignace is spending a few days at Hubbell visiting with friends.

A large number of local business men took down their awnings this morning. The threatening storm induced them to dispense with their awnings until another summer.

HOW HE SAVED THE CIRCUS

Wonderful Story Put Up by Owner Called Forth High Compliment from Editor.

Willis Cobb the circus man told this story:

Years ago he was traveling through the south with a wagon tent show and the press agent among other glowing accounts of "what's coming," announced a "herd of 20 camels from the sandy desert of Arabia."

When the show reached town, instead of 20, there was but one sickly camel. Some of the country newspapers paid no attention to this slight discrepancy, but when Cobb entered the office of a Georgia country editor he was mad enough to fight.

"I saw your parade, sah," said he, "and you lied to our people. I've a good mind to roast you. Where are your 20 camels you made my paper say you've got in your show?"

"I'll tell you how it was," explained Cobb. "When we passed the swamp on the way here it was full of alligators, and without the slightest warning they leaped upon the bank and devoured all but one of the camels. We put up a brave fight, but it was no use."

The editor gazed at Willis a couple of minutes and then said: "You're a good one. You ought to be a Georgia editor. Come out to my house to dinner to-day. I want to introduce my wife to the biggest liar on earth. She'll be glad to meet you."

GENEROUS AT WIFE'S EXPENSE

Tired Wife Explains How Husband Gets the Reputation He Likes So Well.

"Yes," said the tired-looking woman, "I have a very generous husband, and this is the way he gets that reputation. The other day I worked and slaved in the kitchen for about ten hours making jelly. It was my first attempt, so I had considerable trouble and burned my fingers about seventeen times. It turned out pretty good, however, and of course I was proud and delighted. That night I put some on the table for dinner, and husband got enthusiastic.

"Next day he was visiting a sick friend of his, a man, by the way, quite able to buy anything he might want and whose wife never lifts her finger. On leaving, Mr. Generous Husband says: 'Wife made some pretty good jelly the other day. You might like some. I'll send you up half a dozen jars.'

"Now, wouldn't that frost you, or rasp you, or whatever they say? Half a dozen jars! After all my work, to hand that jelly over to a man whose wife is too lazy to breathe! I made exactly eight jars, so we will have one more, unless he has already promised it to somebody else."

A Use for Snakes.

Snakes, for all we know, may be useful things. Upon the island of Jamaica the Indian mongoose was turned loose, and this form of ferret soon killed out all the snakes—just as the Jameicans had planned—but ticks got so thick that much grazing land was useless. Apparently the ticks had been held down by snakes. Worse still, after running out snakes, the mongoose began on birds' eggs. All this biological balance is a new and difficult branch of science which is little understood.

Teach Household Arts.

Several new schools of household arts were opened in New York at the beginning of the present school year. In one of them girls who have not taken a college course can get practical training in cooking, the care of the home, house decorating, the keeping of accounts, millinery, dressmaking and embroidery. Part time courses are permitted so that the training need not interfere with other studies or work the girl may be carrying on.

Would Have Astonished Fulton.

It costs about a cent and a half a pound to ship American merchandise from New York to Trebizond, an out-of-the-way port on the Black sea, 5,600 miles, or thereabouts, from the United States. Then it costs 15 cents a pound to carry the same freight by caravan, from Trebizond to Tabriz, the chief commercial center of Persia, a distance of 600 miles. Fulton never realized how much his invention was destined to beat camels and horses in cheap transportation.

Weeding Out the Dead Material.

"We talk about weeding the sport of the arena in our town."

"Indeed?"

"Sure. Some day we are going to herd all of our mossbacked non citizens together and have a grand killing."

Rat Electrocution.

One of the latest ideas for killing rats is a trap into which the animal walks, attracted by an electric light and a display of food. Once in he can not get out and an electric current kills him in fifty or sixty seconds. The apparatus can be so arranged that the electrocuted animal itself signals its fate to any desired place.—Popular Mechanics.

Careless Man.

How careless people are! We saw a man in a store this morning buying a pair of suspenders, who said he had been trying to think of them for two years; he had needed a pair for two years, but always forgot, when downtown, to buy them. Is it any wonder that this sort of a creature occasionally forgets to kiss his wife before leaving the house in the morning?—Atchinson (Kas.) Globe.
